

Address to the Priesthood and to the Nations of Planet Earth!

The Thorny Path of Mankind to the Truth of Our Being.

Since the ancient times mankind of all the times and nations cognized the world of nature around and himself step by step, and what was inaccessible for the mankind mind yesterday, seemed to be impossible and unreal – today it is the reality of our life. The words of the Rome philosopher Seneca, who lived in about 5th century B. C., “Through Thorns to the Stars”, characterize the swift progress of the mankind mind through the maze of ignorance, prejudice and mistakes to understanding of laws of world building. The mankind investigates dynamically subduing the peaks of unknown, but the mankind does not think what way are we investigating so quickly? I cannot say that I have completely recognized the matter of the world building, but I shall open the way of my recognition of the nature of world around to the mankind and what is inaccessible for the mankind mind. Whom and what are we obliged in our development to? To our intellect, you will say, but alas, our brain has not been changed for ten thousands of years, as scientists say. Why till the present time have not the mankind discovered the mechanism which could allow to explain the mankind development? The mankind thinks that he exists by himself and does not depend on someone else, but alas, it is wrong. The mankind development like the mankind himself has always been in all the times and is still and will be under the continuous control.

The history of the mankind development knows that independently from each other one and the same invention was made nearly at the same time indifferent countries. The same situation is with many inventions. How to explain such a not refused fact, that the writers-fantasts described in their works what was impossible for the mankind mind at that period, but tens of years passed and what had been a fantastic was the reality of our life. My way to cognition was easier than the realization of my knowledge and my possibilities. I even do not know with what to start telling the matter of what has happened to me during my life. I shall start with abstract, how people react on my information. There is a paradox in the man’s psychology. All of you know that all the countries of the world spend huge sums of

money for science, for different investigations. I made investigations by myself, what exactly you will come to know step by step, but a little later. Do you happen to know that all the highly developed countries and private companies including Ukraine and Russia take up investigations of Universe searching the out of the Earth civilizations? The world community has been occupied with these questions since 1947, but there is no result and there will not be till in a country there appears a self-uninterested man and listens to the healthy mind and then I shall point how to get in touch with the other dimension of our Universe. I had a meeting with astronomers in Moscow and I informed them about the purpose of their faults. In 2005 I was at the Academy of Science of Ukraine and offered them to use my invention for searching the out of the Earth civilizations, as my invention had been tested by me for 500 times and not only with space, but also with other dimension. They answered that they did not have money for their programs. I understood that everyone wants to invest himself.

People do not believe that it is possible and I say: check. Partially I understand those people that do not believe me, including scientists and state representatives, my invention, as well as my possibilities, seem to be impossible and super national and are beyond the man's comprehension. But I do not ask the scientists, state representatives and the usual people to believe me, I just ask everyone to test me and my possibilities. To test my inventions and my possibilities one does not need much expenses, it is the state that should guarantee the full safe, and even better for the world community to take up this problem. My investment will turn the idea of world building upside down, the mankind will open for himself a new Universe, and shall come nearer to God and everything divine, and our belief in God will become stronger; those that do not believe, they will, those that hesitated, they will start preaching the word of God and come to know God through the actions mundane.

Unfortunately priesthood does not believe me. I described all the events that has happened to me since the 80th of the 20th century and till the present days. Everything that has happened to me is from God and through God and in the name of Him, and in the Glory of Him, and in the good of the mankind. Another man could be in my place and he would not be believed as well. Such is the human psychology. But God chose me and I shall do everything possible and impossible for the world to

believe me. The one that does not believe me let him test me with the most modern methods as such thing is given by God once since the day of the mankind creation. Everything that that has happened to me since the 80th of the 20th century and till the present days I described in details and sent the information to the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI. They answered with silence. I thought the God would say His last word and I was heard by God and through the Holy Spirit God said verbally to the whole mankind of now living and coming generations: “The last people on the Earth seeing God”. When I analyzed these words, I became frightened for the mankind of now living and coming generations. God is furious: this information is a sentence to now living and coming generations. Moscow and Rome ignored the information from God having sentenced themselves this way to the eternal pangs. This concerns the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI. That priesthood sentenced himself as well that was informed with this information and ignored it too. When I wrote this information in a rough copy I was thinking for several days about the words: “the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI have sentenced themselves to the eternal pangs living on the Earth”. And I decided to exchange these words into: ”God is judge for all of us”. But when I did it, I felt bad, some inner pain made me feel awful, and I began to analyze. I had been completely healthy before I made up my mind to exchange some words into others and I reminded that when I was writing the words: “They have sentenced themselves to the eternal pangs living on the Earth”, I was writing them without thinking, as if being dictated. I made up my mind to restore the words: “They have sentenced themselves to the eternal pangs living on the Earth”, and I felt well, anxiety, pain disappeared. After that I became even more self-conscious. I had made certain for several times and did it again that I am not by myself. I am from God.

For the reader not to hesitate in sincerity of my words, I shall describe all the events that happened to me at the beginning of the 80th, though it is not the very beginning. As the beginning there were the events at the age of eight, but I miss it. Before starting to describe all the events that have happened to me since the 80th of the 20th century and till the present days, I want to express my opinion to the actions

of the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI. First of all, I want to say, that I do not condemn everyone and ever. I testify to God about the people and events I have lived through. If I had such a high holy orders as the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI, I would act differently.

Everything concerning God is holy for me. And I would strain every effort, every possibility to find the truth and release myself from the responsibility, and to carry out God's will. The above mentioned holy persons did not raise a finger for God sake, for truth and justice. God estimated them through the Holy Spirit: "The last people on the Earth seeing God". I am not afraid to repeat, God is furious and it is a sentence now living and coming generations.

We know that God loves us, that God is merciful and patient. God hears us in our prayers. God sees us and everything taking place on the Earth. We ask for a help and we get it. God wants to help us to change life on the Earth. God brings us good. And we turn our backs to Him when he asks us since the creation of the very first people. The words said by God through the Holy Spirit, prove that God will not ask us anything.

I address all the nations of the world with a request: address with pleading to the Moscow Patriarch and all the Russia Alexei II and to the Pope of Rome Benedict XVI to carry out God's will. They know what the request means.

I am sorry, my dear readers, that I have not informed you how I took the responsibility to act as a go-between God and mankind. Anybody else could be in my place. But as a matter of fact we do not choose, but chosen.

In my work "My Way to God" I explained everything in details, and in this article I shall describe in simple words. At the age of eight I was told about the tormenting death of the Lord Jesus the Christ. This information impressed me. At the age of twelve I hesitated in God existing and with these thoughts of God I lived till the age of twenty, but thoughts of God did not leave me. It was 1964. In private I was thinking about God and I felt the presence of God in everything that surrounded me. This way I turned to God. It was difficult for me to understand the Bible because of some complicated moments. For example, the snake captivated Eva. The snake is an

animal and it cannot talk like a person. I discover for myself that the conversation was going on telepathically. I went on. If the person spoke to the snake telepathically, it means that Father God – the Creator of essence – founded in a person telepathic possibilities. I believed that I have these possibilities like any other person. The second example. We all know from the Bible that when Jesus was born, a star appeared. This star was seen by the East wise men. When the wise men came to Irod, the Judea czar, they listened to him and left. The star that they had seen in the East went in front of them till at last it came to the place where there was Baby and stopped. The star is not mysticism but the real object. The words went in front of them proves that it moved with the speed of a pedestrian and stopped above the place, where there was Baby, prove that it was a flying machine, navigated by people. I make a conclusion that the flying object was from God Kingdom. Then I could not admit that later in about 15 years I should be heard in God Kingdom. In 1991 it happened. In 1998 the Universe heard me; the details of these events will be a bit later. Perhaps, for somebody it will seem to be a tale, but for me it is my real life, real events and this all I can restore. My thoughts are controlled in the other dimension by the nation of our Universe. I was not mistaken in the telepathic possibilities of the man. And I used them. These events followed the years of investigations in the field of sending and receiving the information not with a mechanism in endless distances. What is the information holder I do not know, perhaps telepathy? This all was described in my work in details “God, Space, We and They”.

I shall return you to the year 1981, what was particular for me. That year I noticed that by my face a black point flied, mostly on the left. Time passed. It was 1983. I see by myself not a point but my soul. God gave me this gift for me to tell the world about the soul. But the world is “deaf”, and the priesthood is not only “deaf”, but also “dumb”. They do not want to listen to me. About the soul I know absolutely everything. It is mentioned in my work “My Way to God”. But now I know even more than four years ago. The information is periodically added.

All the events concerning God, which happened to me during my life is not my wish. It is the will of Father God, Son and the Holy Spirit. God gave me the gift to see in spiritual sight, that is visions, which bring the trustworthy information like the

prophetic dreams. I also have a clear sight. I can see the limited spirit world, belonging to God.

In 1995 on the 17th of July Father God called my soul, I was in a spirit and saw God as He wanted me to see Him and say to the world what God wants from the mankind. I realized that I was in a spirit, that my body lies on the sofa and I have to come back to him. God wanted me to return and He sent me back to it. In 2003 – 2004 I was in the Lord church in the village Trostianets, Kivertsi district, Volyn region, Ukraine. This church is 300 years old and the icon of God's Mother the Holy Maria is more than 300. In this temple I was blessed with the cross from the icon of Jesus the Christ and the cross from the icon of His Mother the Holy Maria to the deeds pleasing God.

I always pray with my eyes closed and see everything I am shown with the spiritual sight. Everything is described in details in my work "My Way to God". On the 17th of July 2005 I had a vision. I saw Jesus the Christ at the moment of His tormenting earth death. Everything is described in details in my work "My Way to God". In this work there is information, received through clear hearing and visual information.

I saw Father God, I saw Lord Jesus the Christ, the Holy Spirit. I know their demands. I gave this information to Moscow and Rome. You know the result. In these documents I described the variants how I can be tested for authenticity of the given information including lie detector. I am not afraid of any test. I am pure in front of God.

Dear reader, I return you to 1991, the 16th of August. At 11,35 p.m. not only my life but my consciousness and understanding of world building were turned upside down. A ship from the other dimension came to me. They found me at the frequency of my thoughts. Everything is described in details in my work "God, Space, We and They". I shall be sincere with you. I did not know whether to be happy or not. I was not sure that that ship was from God and on this reason I behaved very carefully. In 13 years I was sure that that ship had been from God. It left a deep trace not only on my earth life but spiritual one as well. The further events developed quickly, my fate changed. I did not belong to myself. I belonged to God and mankind.

But unfortunately the mankind turned their backs to me without speaking of the priesthood. By the way about the priesthood, I met many ones of the high holy orders. Their knowledge is limited with the Bible and in addition a lot of examples of the false Bible explanations, but let it pass.

Though, not to be unsubstantiated I shall give some examples. While translating the Bible from Russian into Ukrainian a rough mistake was made in the text. Matvey 241 – 29, oracular conversation on the mountain Eleon “and this Gospels of the Kingdom will be preached all over the Universe as a witness to all the nations; and then there will be the end”. It was said by Lord Jesus the Christ. While translating some word were exchanged into others, exactly, all over the Universe were changed into allover the world. The world is our Earth existing. In this translation very important information is missed. God said distinctly clearly and perspicuously that the Universe is inhabited with nations – alien civilizations. I witness about it in front of all the nations of the planet Earth.

The priesthood assures, that there will be the second coming of Jesus the Christ when God judges the world and finally restores New sky and New Earth. Apostle Peter writes: “There will come the day of God, at night for sure, and then the sky will pass with noise, elements will be destroyed with flame, the land and everything on it will be burnt”. I confirm the said by Apostle Peter and present the information I received at night and proof in reality.

It will happen at night in 3793. On the Earth there will be a explosion from the East to the West. The explosion will have such a force that it will reach the space. The land and the sky will burn. I want to inform all the nations of the world that what Lord Jesus the Christ said through Gospels is that He will make a New sky and New Earth. This all is carried out by Lord and I am the witness of it. I saw the New sky and New Earth. It is identical to our one in climatic conditions and seasons spring, summer, autumn, winter. Do not seek the New Earth in the sky, it is in the Kingdom of God.

This information was received through the genius prophetic dream in its simplicity and intelligence. And in this dream there was an additional guarantee that confirmed the primordial information. Much time will pass and our Universe will

stop existing. The priesthood approves that the God's Kingdom is in the skies. This way the Bible approves as well only because the Mankind living 10 thousands, 2 thousands and a thousand years ago one could not explain differently. Only the modern man can realize that the God's Kingdom is in the other dimension and I am the witness of it. Ask any priest what language the first people on the Earth spoke. They will not answer you. Ask the priesthood what mechanism there exists to provide the connection of Mankind and God. Ask the priesthood how they imagine the Kingdom of God and you will hear the funny answer which I have heard. I made a questionnaire of 31 questions concerning God and man. Let the priesthood answer them. I am sure that their answers will be poor. I had a possibility to talk to the priesthood. Whatever I told them, everything was from the evil. Then what is from God? Some of the priesthood confirms that in the modern world there cannot be any prophet from God. Others admit that it can be, but it must be an old hermit. Let us peep into the Gospels what is said there about it. The Acts 217 – 38 “and on the last days, God says, I shall withdraw from My Holy Spirit to anybody, and your sons and daughters will prophesy, and your youth will see prophetic visions, and your old men will see teaching dreams. To My slaves women and men I shall withdraw My Holy Spirit and they will prophesy.” The last days are far ahead and God needs connection with the Mankind. And God chose me.

I was not mistaken when I said that I belonged to the Mankind. Year 1998. American scientists astronomer discovered a lot of asteroids approaching the Earth. At that time it was America alone that had such apparatus that could discover in the far space the flight of asteroids. This information was published in the mass media. The asteroids were very dangerous for our land. The scientists approve that the asteroids 500 meters long can plunge the Earth into the darkness for six months because of the dust which will go up to the higher covers of atmosphere. The asteroid of larger size can dislodge the Earth off the orbit. On the base of this information American industry released two films “Armageddon” and “Armageddon-2”.

Having studied this information I thought that on the Earth there was enough misfortunes. And here it is additional threat. I make a conclusion to use my possibilities and abilities. Through the prayers to Father God, Son and the Holy Spirit

and also through the prayers to the Mother of Jesus the Christ the Holy Maria, in the name of Earth inhabitants I asked for help at the space civilizations. My thoughts were spread all over the Universe. I was asking for help three evenings long. From the first request five days passed and the crew of the trip space ship found me. In ten days the crew of the second trip space ship found me. Everything is described in details in my work “God, Space, We and They”.

The year 1999. On the 2nd of June I address in the name of Earth inhabitants for help to the space civilizations, through the prayers too. In two days the first space ship came. Next days new and new civilizations came. Their total number was fifteen. Since 1999 till 2007 there were more than 500 contacts on the space level and in the Earth atmosphere. Everything is fixed in documents. In Internet I found a lot of organizations that go in for seeking out of the Earth civilizations, those were state and private companies. I warned everyone that they will never find any space ship this way. No one believed me, naïve people they are. They want to unite telepathy and techno genius methods, absurd. All the organizations that go in for seeking the out of the Earth civilizations, including in Ukraine, look like infants for me. They have been looking for what cannot be found since 1947 and till present time. There is no result. States and private companies waste money. I alone can exchange them all, but they ignore me. I hope that the sound mind will win. Perhaps in at least one state there will happen to be a man pleasing test me because of self-esteem. I have been waiting for this man for many years.

The most ideal mechanism in the other dimension, in our Universe and on the Earth is telepathy. What is the telepathy carrier I do not know; perhaps it is the telepathy itself that is the telepathy carrier. The telepathy can send any information to the endlessness. The telepathy is multi channel to the endlessness, as the information sharing along the telepathy channels itself. Thoughts of every man have their frequency. I want to define more precisely that along the telepathy channels one can send everything we watch on TV and more over, one can send his feelings. We all on the Earth are telepathists in one way. There are very many people from God that can send and receive information. But there are enough ones from evil. These are

different fortune-tellers and also private doctors. One can see them at once. But do not mix them with folk curators. The telepathy has a wide range of usage.

Why did I devote so much time to the telepathy? Because it is the carrier of all the kinds of information in the other dimension and in the Universe. Unfortunately, citizens of the Earth do not believe me that only on the Earth people use the techno genius connection, that is the radio frequency. You should understand that telepathy and techno genius methods are incompatible till endlessness. Listen to me, I alone shall exchange all your techno genius connection for you. I have told you that the frequency of my thoughts is controlled in the other dimension in our Universe. I have no problems with this. If the world community believes me even this year the ones from the other dimension and from the space will be our guests. While meeting guests from the other dimension the priesthood should be present. And while meeting people from the space present of the priesthood is desirable.

I shall enumerate my possibilities beginning with the easiest. I shall show UFO in the space. I shall teach how to identify UFO from satellite. I can be the expert in the given field of investigation. I can comment any documentary film about UFO, correct the mistakes of commentators. I can teach how to differentiate UFO from the space and the ones from the other dimension, how to differentiate UFO from the far and near space. Starting from 1998 and till present time I have contacted more than 500 times. Everything is described in details in my work “God, Space, We and They”.

In the documental films they often say about kidnapping and about different experiments with them. It is the improbable lie. The out of the Earth nations are very, very friendly to us, Earth inhabitants. I had a possibility to assure myself many times in 1998 and 1999 and next years. And the other dimensions are out of the question. We must be sure as there is God’s Kingdom there.

I expect offers about cooperation in this field of investigation from states, world community.

I have pronounced the words the other dimension many times and you know that there is God’s Kingdom there. The other dimension is theoretically proved by the scientists of the former Soviet Union. These scientists lived at that time in Moscow

and Kharkiv. These scientists proved their theories at the Academy of Science of Ukraine. The modern scientists of America also investigate this question. One of the American scientists worked out a theory of turbulence, which, according to his calculations, will allow passing to the other dimension. If one enters the North Pole he will go out on the South Pole in the other dimension. This theory was greeted by the American scientists. To my mind this theory is false. There are the facts that witness that UFO disappeared in front of the eyes of many people and I was the witness of this on 16th of August 1991 as well.

I assure you, my reader that no one nation on the Universe can ever pass to the other dimension. The modern space civilizations have neither knowledge nor possibility of passing to the other dimension. For passing to the other dimension one should have power over the material world. The Heavenly Forces have such power from God, but it is not accessible for mankind. I want to warn the mankind about the premeditated false Darwin theory, which says that nature and man was produced by the evolution. Do not believe this as it is the evil theory. This way the evil forces will beat out knowledge about the real Creator from the people consciousness. The world will be ruled by devil, the creature of human appearance and animal sense.

Modern scientists astronomers have a possibility to observe the Universe building, and everything except one thing is clear for them. There is a dark energy present in this all, which rules the whole process. The scientists astronomers cannot explain what this energy is. I shall tell you what this energy is. It is the materialized energy of God's thoughts, which rules the whole building process. I had a possibility to observe the materialized thoughts of Lord Jesus the Christ, when at the same time a ship from the other dimension, a ship from the far space and a ship from the near space came to me at the same time. The fourth object in the form of dark sphere was the materialized thoughts of the Lord. Concentration of the materialized thoughts has huge energy.

I want to caution against the mistake. People often mix up the parallel world and the other dimension. The parallel world is on the Earth, the other dimension is beyond the Universe. In the parallel world and in the bowels of the earth evil forces live. All these forces have two forms of life – spiritual and material. They have ability

to transform from one state into another. They can live nearby in the desert places and by necessity they transform from one state into another.

Dear readers, I offer you to return to the question of the mankind development, where is the key to this secret. I think that this question has been interesting for people in all the times. I shall open this unsolved secret. I have written and I shall remind you once more that the mankind in all the times has been, is and will be observed and controlled intently. Father God created man and left him alone. God knew and knows everything about every person. And the mechanism of our development is the following: through telepathy Holy forces control every person on the Earth. If somebody is interested in something and begins to design something, to invent and so on, from the very beginning he is prompted telepathically on the unconscious level. And the person takes it as his own thoughts. Through telepathy there is a prompt if the person has difficulties. But the person in any question is not exchanged, he is directed, prompted. The same mechanism is used in literature, art, machines, in any investigation, invention and so on. Before asserting this I tested this on myself. I got interested in our Universe and my thoughts I flew to the endless space of the Universe and I began to see dreams. I was shown the Universe limited in a square or just an open space. Not to be unsubstantiated I shall give two examples. Scientists astronomers of the Soviet Union discovered 13th zodiac sign and offered to name it "Snake holder". This invention was at the same time as I discovered the sign. If the scientists astronomers can test their discover let them inform me if that sign is ruining continuously. The sign I have seen is continuously ruining. In some time the American astronomers discovered a physical body of three million world years old size. This body is dark as because of its weight it keeps light inside. At the same time I discovered a body in the space, which did not radiate light and its stars turned around this body against the clock hand. In the first case there was no information that that sign was ruining. In the second case there was no information that the stars turned around this body against the clock hand. I address scientists astronomers, help me to clear it up! I have been working on these questions since the 1990s,

It was already the fifth time that before Christmas I addressed Lord Jesus the Christ with request to inform me about the strict date of the Holy Birth. I was heard

by God. This happened on 31st of December 2007 after midnight. I was sleeping deeply and did not awake at once. I saw this dream three times. I heard adult people's voices in distance, a bit nearer children's voices, girls and boys, and nearby a boy said in Ukrainian: "Christ is born". All these voices merged with the boy's voice: "Praise Him".

Since the beginning of 1990-s and till the present time I have been receiving the information through dreams, visions and clear hearing. Everything came true completely. What has not come true, it will by all means. I have received the information through the dream that before the second coming of Jesus the Christ to the Earth, God will produce a not made by hands temple of Lord of blue colour like the sky. The place for the temple production God chose Ukraine, Volyn region, Rozyshche town. The temple will be built on the old Polish cemetery. The temple of Lord will be destroyed at once and completely. There will be ploughed field. This temple will be built when the world will be ruled by the devil. There will be the second coming of Jesus the Christ. The last war will start on the Earth between the good and the bad. The good power would win, the devil would be imprisoned on the place where there had had been built and destroyed temple of Lord. I saw this all and I testify to this. Why exactly these events will take place in Ukraine, who is interested in this, read information about our ancestors, about the period of the Trepil culture, about the nations of this period. I can inform in a couple of words: our ancestors worshiped the sun and different symbols and signs. The fascist swastika is borrowed by Hitler from the period of the Trepil culture. Symbols and signs are due to the evil forces, they are used now as well. Satanism is forbidden in Ukraine but it succeeds and has more power. Everyone has an enciphered code. Perhaps it was desirable for God that a satanist took me as one of them and asked what my code was. I saw him for the first time and we exchanged a couple of words. I left and did not see him any more.

It happened on 17th June of 1995, I was lying on the sofa and relaxed. I remember the last moment and I was brought to the other dimension and it was summer there as well. The sun was shining brightly, flowers were blowing, there was juicy green grass, multi-sound birds were singing. I felt very well. I lifted up my head

a little and I saw a mighty tree of the pine sort with a very large crown. I looked at the top of this tree and saw a man up to the chest on the tree crown. I realized that I was in a spirit, that I needed to return to my body. I was afraid that my family would find my body and call ambulance. I received the information that God was looking at me. I thought of what to do: to stay here or come back to the sofa. I want to warn the readers that in the foreseeing dreams, in the visions and in my case, I found myself in the spirit, a person is not under his power, the man is ruled from the above. I shall admit that when I was on the earth I felt in the body, but I do not know what way I appeared on the top of the tree and I did not feel my body. I seemed to be on the earth in a cover. I appeared to be in 15 – 20 centimeters long distance from Father God. I was looking at the man with manly, stately, with regular features face of the 50 – 55 years old. The forehead was high and broad. I had never seen a man on the earth with such a forehead. That forehead was particular; hair was black, combed backwards, black. I saw such hair at Asiatic. Father God concentrated my view on the hair of the head and the beard. The beard was thick, of the goatee style. On the chin one could slightly see a dimple. The nose was straight, eyes open, large. This all I saw with a sidelong glance and my main look was concentrated on the hair and beard. The forehead was open. When God concentrated my look on the hair I saw some turning grey hairs and when God concentrated my look on the chin I saw some turning grey hairs as well. I thought of my body and God sent me to it. I was analyzing what had happened to me. It was beyond my understanding that it could happen. I am very upset that the priesthood does not believe me. The priesthood understand that it is not that they fail to believe me, they do not believe in the power of Father God, but everything is under God power. He created the Universe and everything that is on it, and God can do with us everything He wants. Father God gave me knowledge and I know what Father God wants from the mankind, but about this a bit later. On June 17th 2005 at midday I was going in a train in a cabin, eyes closed. I clearly heard and saw with the spiritual sight from the side of the cabin a conductor; a lot of leaves fly to each other and I saw that of these leaves the vision of Lord Jesus the Christ at the moment of His death on the earth was making. I saw the total shape and at once concentrated on the forehead and on the head of God. The forehead attracted me at

once as the same forehead I had seen at Father God. I saw the thorny wreath which thickly covered the whole head of Jesus the Christ. On the thorny wreath there were mighty, more than a centimeter long and very sharp thorns. The head of God was bowed and lowered to the right, on the right side of the forehead there was a vertical recent wound, 6 – 8 millimeters wide and about 3 – 4 centimeters long. The wound was recent but there was no blood and I make a conclusion of this that the heart of Lord did not beat already.

I saw the icon of Father God and God's Son Jesus the Christ and I make a conclusion that icon of Father God and God's Son Jesus the Christ are identical with the difference that Father God had mightier bodybuilding than Jesus the Christ.

I saw Father God and Lord Jesus the Christ at their will and to their mind. Remember for ever that God does not have waste things. Father God and Son God want to come true their ideas through me and priesthood.

The first commandment of Father God says: "Let not be other gods in front of My face by you". Let us have a look at the whole earth in mind and we shall see that half a mankind prays to his idol and does not know the real Father God, Son and the Holy Spirit. The world has ploughed into the abyss of different evil and for them on the first place is material. I address all the nations of the world with call. Come to your senses, come to your senses and come to your senses again. Keep the fast and come to know real God Father, Son and the Holy Spirit!!! The time of the second coming of God is approaching, a little of centuries is left. And the time left will be full of cataclysms. The one not with God will be against God, and the one against God will be destroyed with the flame undying. The part of the mankind that obeys Father God, Son and the Holy Spirit through icons, where there are created by men faces, is not welcome for Father God, Son and the Holy Spirit. Father God, Son and the Holy Spirit want the mankind to worship them through the icons, where Their faces as I saw them are pictured. The priesthood and every parishioner know that the icons of Father God were pictured in a sinful, absurd and inadmissible. All the icons of Father God, Son and the Holy Spirit should be exchanged into the icon where the real visions Father God, Son and the Holy Spirit are pictured. Amen.

I let to know the demands of Father God, Son and the Holy Spirit to the whole mankind of the planet Earth. The demands are the following: Father God, Son and the Holy Spirit are displeasing see the visions created by men. Since this time and till the second coming of Jesus the Christ on the icons there must be Images of Father God, Son and the Holy Spirit as They showed Themselves.

In the message of the Pole Pavlo to Korinfians 11 17 – 12 11 it is told about the Lord's Supper where God said: 26. "and every time that you eat this bread and drink this cup, you notify the Lord's death till He comes." The same way Lord wants to see the image of Him on the icons as I saw Him, which will inform about the Lord's death till He comes. The one that will ignore the demands of Father God, Son and the Holy Spirit, he will be sentenced to the eternal pangs living on the Earth. It concerns all and everyone.

I call all the nations of all the religions, large and small, to repenting and to overestimating of our earth living as it is so short. We are guests on the planet. We come and leave to the Lords world where the life is internal. But we should always remember that the internal life is given by God for our actions on the Earth in serving to Father God, Son and the Holy Spirit. I also address with a call of repenting of powerful people and rulers of our world. I beg you overestimate your earth life and realize your fault in small and large sins, the fault in front of God, in front of the mankind and in front of our mother Earth, which fed us, grew and which will take our body after the earth life. Listen to the nature of the world around, everything groans and begs for help. An incredible damage is made to our environment, including radiation, which is harmful both for the nature and people. There is a continuous accumulation of different weapon, that is chemical, bacteriological and so on, and as a result sick babies are born, the planet citizens suffer of different diseases. Our planet is our common home and no one country ha any right to harm the mankind through the destroying of the earth ecology as it is understood to be the crime in front of God and now living and coming generations. Through the Gospels God warned that everyone that destroyed the earth will be destroyed. I warn that the body death is not the person's death. The person goes on living in the spiritual world, keeping all the information he did while living on the earth. There is memory, sight,

hearing, moving about the space and many other possibilities and abilities, but it is another conversation.

Many people think that death on the earth will abolish all the sins and crimes, but it is not true. Someone can be indignant and say that I have not been there and I do not know. So let you know that I know everything about the soul both in front of the physical death and in the spiritual world. Time will come and I shall tell you about the soul from beginning to end.

I shall go on the topic that worries everyone loving our planet named the Earth. There appeared the greenhouse effect, which will lead to flooding huge territories of the earth and death of hundreds of millions of people and everything alive. Think what we shall leave for the coming generations. Wealth you have saved is permanent and even your great-grandchildren will miss to use it. Use your wealth for renewing the environment, help poor people and unfortunate ones. Turn to God, repent and apologize at Lord Jesus the Christ, at the mother earth and now living and coming generations till it is not too late. Make a contribution into peace on the earth and in uniting of all the nations in the single belief in Father God, Son and the Holy Spirit, help in producing the only religion on the earth pleasing for God. Mankind! I call all of you and everyone separately, let God be everywhere and always in the first place, and then the everyday business pleasing for God. Do everything in the mane and glory of God. The only religion on the earth will put end of contradictions, conflicts, confrontation, misunderstanding and violence.

The earth history knows how many people have died and go on dyeing nowadays because of great number of religions and their contradictions. Today there are more than 200 religions. God does not need these religions and everyone on the earth should understand that we have the only God for the whole mankind of the earth. It is Father God, Son Jesus the Christ and the Holy Spirit, going from Them. Lord made a testament to love each other. I address with the call to that part of citizens, who worships to imaginative idols or Gods, realize your fatal mistake and repent. The first testament of Father God says: “Let not be by you other gods and idols in front of My face”. With this testament God addressed to the whole mankind. It is up to you to chose – the eternal torments or the eternal life.

The larger half of people on our earth has been waiting for a long time for the only religion in the glory and in the Name of Father God, Son and the Holy Spirit. Amen.

The common spirituality for all the religions and nations can unite all the religions pleasing God. It will be based on the mighty foundation in the only belief in Father God, the creator of everything existing. Father God is the Supreme power that had no beginning and would have no end. The Supreme power of Father God is eternal. The only belief is in the Son of Father God Jesus the Christ who took the torment death in the earth life for the sake of saving us sinful. He took for himself our sins. The mankind of all the times and nations must know and remember that we are the eternal debtors in front of the Lord Jesus the Christ. God is the saver of the whole mankind. The way of every person to the Kingdom of God, where the life is internal, is through Lord Jesus the Christ alone. The only belief in the Holy Spirit, who goes from Father God and from Lord Jesus the Christ. The Spirit is endowed by Father God with incredible intellect with unlimited possibilities and capabilities of dividing into necessary sizes with saving the basic qualities. The only belief is into the Holy Maria the Mother of Lord Jesus the Christ as she is chosen by the Father God for embodying His plans. Father God endowed the Mother of Lord Jesus the Christ with the Holy Spirit and gave her power over the mankind for her to teach us the way leading to the Kingdom of God, for her to help us and her appearing informed us about the terrible coming events and for us to repent in our sins and beg Lord to forbid our sins, and for us to realize what a terrible internal punishment expects those who is not with God. I address the nations of all the religions, pleasing God. Do not look for contradictions in the religions and they defer because we have been going to God different ways, but the Kingdom of God there is only one. God has warned us through the Gospels that the gates to the God Kingdom are narrow and that there will be many invited people but few chosen. Let us be worthy of the God Kingdom. The time of uniting all the religions, pleasing God, into the single religion has come. Every religion should give up something, lose something and it will find much more, every person will have a hope for saving and the internal life. Think not only about the today and yourself but of the generation following us, do not think only about

yourself. It concerns everyone and all of you. Think of the coming time and of those global events that will change our world, get ready for them already today. The people, including the priesthood, which will stand up against the production of the only religion on the earth, will unconsciously help the devil, and the one helping devil is against God, he will sentence himself to the eternal pangs living on the Earth. Problems of the only religion should be observed through the deep analysis of all the events on the earth. I address the priesthood of all the religions, pleasing God. Do not follow the events on the earth but change them in favour of God. Do not you see how quickly our world is changing? Do not you see how quickly new religions, unpleasing for God, share? Do not you see fewer number of believing parishioners in the main religions, youth particularly? This way the power of evil will make the main religions weaker. What is weakened is due to destroying. I think you know the evil plans of satanists. They call world congresses, where they coordinate and direct sharing of satanism all over the world. More over, they use psychological investigations and methods allowing them to entice hundreds of thousands of people with insidiousness and lie. Today there are hundreds of thousands ones and tomorrow there will be hundreds of millions. I have written about this but it would not be out of place to say that the satanism has become mass. I am sure to know that that the satanism has become mass in all the states all over the earth. The examples above witness, that the priesthood, to say at least, does not pay much attention to this problem. Problems should be solved as they have a tendency to accumulate. Today it is not enough to preach the word of God in the God's temple. It is necessary to go to masses using all the mass media. Go to people and explain them who is who and where the danger comes from. I offer servants of church: be active or you will miss not only satanists, but the second coming of our Lord Jesus the Christ. During the last years the church has become weaker and gives up its position. It concerns orthodox, catholic and other religions, pleasing God. The only way to save the position is to unite all the religions into the only religion on the earth, pleasing God. The only religion on the earth will unite all the forces of good into whole monolith, which will be able really to stand against the evil forces. It accumulates power, which will be able to resist all the religions, pleasing God. I address the higher priesthood of all the

religions: get rid of your doubts and listen to me. Do as I say as it is the will of God!

If you hide behind the lack of faith in me, I am ready to make a dialogue with you in public forecasting all over the earth. I have some questions to the priesthood of all the religions, pleasing God. Do you feel the responsibility in front of God for the evil actions that take place on the earth because of your silence? Have you forgotten what Jesus the Christ said through the Gospels? We shall answer according to our actions on the earth. To my mind the priests of all the religions do not realise that because of their lack of actions a hurricane is approaching, which will destroy all the religions, pleasing God. The time has come, when one may not live to satisfy himself alone. It is inadmissible and Lord will punish for this.

Let us come back to the icons of Jesus the Christ. I have an icon on the back side of which it is written: “The first time when the miraculous appearance of the Lord’s icon began to flavour and to shed chrism was 5th May of 1999”. The owners of the icon are 68 year-old Antonina Ivanivna Efimova and her daughter 33 year-old Olfa Volodymyrivna Efimova from the village Derzavino of the Busuluksk district, Orenburg region. Having noticed this they informed the priesthood. The information about shedding of chrism shared about the area between Volga and Ural quickly. To the house pilgrims came. On 5th of May 2000, on the Holy Wednesday, on the surface of the icon suddenly there began to appear little spots of red moisture, which behaves like blood. It thickened and coagulated and turned into strings. There was a smell of blood in the Efimovs’ house. The Samara priests came to know about this miraculous and terrible phenomenon and organized the according biochemical examinations. They confirmed the suggestion of believers: the icon excreted in some miraculous way the real human blood. Doctors even found out the blood group. It was the same blood group as the one taken from the Turin shroud of Christ, which was examined by the Italian doctors. The blood covered the face completely. My comment on the given topic. God chose exactly this icon among other different faces, pictured on the icons of Jesus the Christ to tell the world: “It is not My Shape. I shut it because I do not want to see the icons created by people”.

Next, there are icons “non-hand-created image” of Jesus the Christ in the churches. My comment, it really happened, once followers of Jesus the Christ asked a priest to paint an Icon of Jesus the Christ and at that moment Jesus the Christ was wiping the face with a towel and on the towel, which Jesus the Christ was wiping with, there appeared a non-hand-created Image of Lord, but this towel is lost by the mankind forever. So, an icon, which is not bleeding and the “non-hand-created image” are not the images of Jesus the Christ. They are counterfeit. I am very sorry that among the priesthood there are people, displeasing God. God condemns such creations of man’s hands and such people will be punished as the man touching something divine must be pure in body and soul in front of God.

Turin shroud of Christ is counterfeit creation of people, who have not light soul and thoughts. Turin shroud of Christ has nothing in common with Lord Jesus the Christ. These two things should be taken away from the temples of Lord right now. On all the icons all over the earth is not the image of Father Go, the Son and the Holy Spirit. These images are of different shapes and are created by different people. I saw the Image of Father God and the Image of Lord Jesus the Christ. They showed Themselves to me for me to testify in front of the mankind. And the Image of the

Holy Spirit has many shapes and can have different forms depending on what purpose has the Holy Spirit. But He has always the unreal white colour. I testify in front of the mankind and the priesthood that Father God and the Son have short hair combed backwards, beards of the goatee form, neat and handsome. The priesthood astonishes me with the lack of principles in the question of the Jesus' the Christ hair on the devices icons. It is not only long but also curly and many priests wear long hair. You seem not to have read or forgotten what the pole Peter said about long hair of men through the Gospels, so I shall remind. Being 9 218 14 "Is not it the nature teaching you that if the man grows long hair, it is a dishonour for him". I address the priesthood. If you do something always think about Lord how He would appreciate your actions. Always remember that nothing and nobody will hide from His eyes. God sees everything and knows everything.

Dear reader, I want to inform you that I missed and should not describe the events concerning the very contacts with massagers from God. Those were Holy people from God. Their task was to tell the world about the Kingdom of God, to say the will of Father God, the Son and the Holy Spirit. They knew ahead that what They wanted would fail, but the fact of their coming would be known for the mankind. In 1991 the first ship from God came, but I hesitated, that it was from God, and only in 13 years I was sure that the ship had been from God. They also came in 2003 – 2005. there were very interesting situations when at the same time there came ships from the other dimension and the space civilizations. In 2005 I informed the Holy people from God that the mankind was not yet ready to see them and I said that I should call them when the earth citizens would be ready for such a meeting. The space civilizations have been contacting with me since 1998 and till the present time. God wants to help us and sent His representatives. The space civilizations as well are very interested to help us, they are very friendly to us but I said to them that the mankind was not yet ready for such contacts. They prompted me to address the government and informed the government about their purpose to visit the earth citizens officially. It will seem to a tale for somebody but for me these are the real events and it is my life. But not everything is lost yet. Everything can be renewed. My thoughts are continuously controlled in the Kingdom of God and all the space civilizations I have

contacted with. Everything that I have written is truth. I have not the right for the slightest lie. I am from God that is the reason!

So, my dear readers, the time has come to tell everything about the soul. Through away all the doubts, all the information that have written before describing the soul and the description of the soul itself and everything about the soul is true. Since the day of creating the man by Father God and till the end of time no one of living on the earth people have not had and will ever have neither such knowledge nor such possibilities that I have, as there has not been a need, and God does everything in the appointed time. This time has come. The choice was given to me for me to have the information and possibilities to give the knowledge and demands of Father God, the Son and the Holy Spirit to the mankind. In the ancient treatises, more than 3000 years old, there is information about the soul, but it is contradictory: some of them approve that the man has a soul; others approve that there in no soul and so on. God knew about those debates about the soul and the time appointed by God has come and I was chosen. If I did not exist, another man would be chosen by God. But the mankind would come to know the truth about the soul by all means. Soul is a material body of extra-thin structure, the soul does not submit to physical laws, the physical body is not an obstacle for the soul, and the soul can go across any material body. The body of the soul, a cover of the soul, is the intellect of the soul, consists of homogeneous material, but of different constructive complication. For example, for building the intellect of the soul one uses of the following construction. 

Every such disk has the intellect of thinking and deciding himself. The brain of the soul consists of such disks. There can be a great number of them depending on the soul' purpose. The body of the soul consists of such disks.  This disk can also have the intellect, but of the lower level, than the 
brain of the soul. The cover of the soul consists of such disk.

This disk is on the lower level than the disk of the body of the soul. For creating the soul one needs a great number of them. All the disks are programmed for creating a soul. Every disk has its function. Soul building starts with the soul's brain of the intellect. How does the intellect look like? These are two spheres, connected with a

tube, it looks like this:

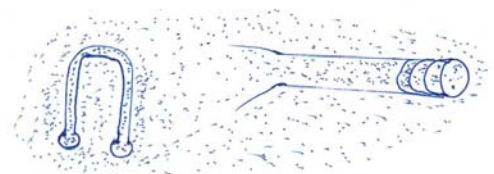

dissolve the disks.

To start building the soul one should

These disks turn into the extra-thin structure and certain constructions, spheres and the tube connecting these spheres are filled with this mass. Beyond the spheres and the tube everything is filled with the mass of certain construction. The same way creating of the body of the soul and the cover of the soul take place. Creation of the soul is carried out by the mechanism programmed for the certain soul creating. This soul is of the higher complication and its purpose is high in the spiritual world. Next, the cover of the soul, its purpose is for concealing the soul and for differentiating the dignity among the souls. Every soul of the person through serving God has certain signs of differentiation for merits in front of God. These signs are pictured in the form of the sun of different size and, to my mind, it is not only the size of the sun that means but also where it is situated on the cover of the soul and in what distance.

I can say the following about the prolongation of building the soul: it depends on the purpose of the soul, whom it will belong. The person has not been born and God already knows how he will live his life, what will be his merits in front of God at the end of life, but God does not give reward in beforehand. For God the result of the person's living and his merits are very important. For building a soul not all the necessary material is given at once. It is given as far as necessary. I shall roughly paint the mechanism programmed for creating a soul. This mechanism dissolves disks and builds the whole soul beginning with the intellect of the soul, this way it is programmed. The Holy Spirit is responsible for building the soul. I saw a simple soul, the intellect frame is the same, but the intellect itself is simple. There is less of the intellectual mass in the spheres, in the tube and around, configuration a simpler. The body of the simple soul does not differ from the cover of the soul and has no signs of belonging. This way the basic building of the soul looks like.

The soul that has a higher destination has the intellect of golden colour and during the life is supplemented with distinction of the dignity and merits in front of

God. I repeat once more that for God the result of the person's living and his merits are very important.

For the reader to be clear as for the possibility of the result of the man's life, I explain. A man lived some period of time and did not differ from others, but in the certain life period the man changes suddenly and people around notice these changes. But first neither people around nor the man himself can explain those changes. Later the man begins to understand that he has got a wish to serve God. Such people begin finding in themselves the abilities, which he has seen before.

I think that human soul can be shaped with optical devices of the very high quality and broad diapason of possibilities.

I have written that all the feelings are inherent in the human soul, everything saves. The feeling like fear is defining for the soul on the certain period of time, but I shall tell about it in details later. Now the soul is bound to its body. The mankind has a false idea about the soul. To start with, people say that the soul is always in the body of the person. It is a rough error. And where is the place in the person's body where there is a soul, no one knows again. So listen to me and remember! Home for the soul in the body really exists; it is in the left part of the occiput. How long does the soul stay in its home? And I hear the answer that during the whole human life. And again is the mankind's rough error. The soul in the human body stays a short period of time only when the body is very thick and when it is in mortal danger. The soul enters the human body and gives him most of the living forces. A little deviation: I shall give an example. Everyone knows that the strongest connection is parents- children, children-parents. When some of them gets ill and is in a thousand-kilometer distance from each other and in the other part of the earth, the relative foresees something wrong, some kind of worry. Some people have a heart-ache; others feel uncomfortable in the solar plexus. There is the only mechanism of this phenomenon. It is the energetic connection of relative people and the distance does not matter. I think many people who have felt something like this will agree with me. Let us pass to the soul. You already know in what cases the soul is in the body. Now that the person is healthy, happy, merry, the person's soul is merry with him. By the positive mood of the person the soul rises up about five meters high from the person. By the usual mood of the person the soul is nearby in the distance about half to two meters. The soul never loses the energetic connection with the person, even in tens-

of-thousands-kilometers distance. Your dreams prove this. Everyone seeing dreams knows, that you use be in many different places during the dream, even in those places you have never been before. Every one of us knows this. That's it; our soul passes this information to the sleeping person, into the consciousness and unconsciousness. I know that every person at least once found himself in an unknown place and had a feeling that he had been here before and this all was familiar to him. And so, here your soul had been and passed the picture of what it had seen to your unconsciousness, and from your unconsciousness the brain takes feelings and the seen picture. Now you know much about the soul but far not everything.

Now I shall tell you a prophetic dream, which prompted that the mankind in wrong in taking out a body to the last path. I see a dream that has brought me the real information about the deceased person's body and about the soul. I found myself in the space, I am walking by the abyss and my body feels the depth of this abyss and its purpose. I am walking and see my aunt; she is lying with her head to the abyss. In about ten-meter-distance I see my mother with her legs to the abyss. I do not feel any sympathy to the relative people. It testifies that one should not mourn over the deceased. At that time the aunt and the mother were alive and healthy. I felt that in that abyss from the top to the bottom there are shelves in the person's size and that the shelf for my aunt was nearby. I went on and saw a corner for one person near the abyss, faced with colour tile; I stood on this place and nearby in about twenty-centimeter-distance there was the abyss. I looked into it and I saw nothing accept darkness, though it was a sunny day. I thought that it was dangerous to stand there and I went in the direction of the north as far as possible. I saw this dream about fifteen years ago. My aunt died eleven years ago. My mother is still alive. Even at that time I understood that if the aunt lied with her head to the abyss and died and the mother with her legs to the abyss and lives, there can be a conclusion that the deceased should be taken out with his head, not legs, ahead. And there is a saying: the head has the leading role.

We have come to the moment of parting of the body with the body. The man died and the soul knows that the body does not belong to it any more. The soul is shocked; it does not know what to do. The divine spiritual forces take the soul and

show its new dwelling, this new dwelling is the upper shelf of the abyss. Three years is given for the soul to bid farewell with the place of living. The soul comes home, sees its relatives like at the time of living, but does not talk to them, but can remind about itself by squeaks on the stairs, floor, touch on the face and so on. In three years the soul takes its way to the bottom of the abyss. The darkness there is very dense. The soul is alone there in horror and incredible fear. The feeling of self-preservation grows together with the fear. It is dark around. The soul is full of suffer and worries. The feeling of fear if the strongest in lifetime and in the purgatory it grows repeatedly. This way the soul works off the sins of its irresponsible body, which has rotted into chemical elements for this period. I have warned and I am warning the mankind that everyone should have the soul on the first place and then the body, as for the sins of the body you will suffer in the purgatory, cleaning yourself from the sins of your body many, many years depending on the number of sins. All the feelings in the person are founded by God. Every feeling has its destination in the earth and spiritual life. I remind once more that all the feelings and memory are saved and the knowledge increase repeatedly. Someone will think that the body has rotted into elements and what way Lord will rise from the dead every one of us as there milliards of us. This way the larger part of the mankind must be thinking and the belief in resurrection becomes weaker. I tell you, do not be in a hurry to make conclusions as every Lord's word, said through the Gospels, will come true completely and on the appointed time. I have once said and shall remind once more, that God is our Saviour and we are the internal debtors in front of Lord and the way the internal life leads through Lord Jesus the Christ. I address the part of the mankind that doubts and that does not believe that Jesus the Christ is the Son of Father God. I saw Lord Jesus the Christ and I testify once more in front of the mankind and confirm that the image of Jesus the Christ is similar to the image of Father God with the difference that Father God is mightier, taller than Jesus the Christ. Let us return to the understanding of the resurrection of the dead since the day of creating the first people on the earth. Many years ago I received the information from the divine forces through the prophetic dream, which testifies that after the full clearing of the person he is given the right to choose a pair. Adult people leave the purgatory in pair, but not

all of them. If before, living on the earth people decided that after death they would be together, they would be together by all means, but in necessary time.

Now about resurrection of a person. Father God founded this ability while creating a person, but the person will not resurrect himself. Father God gave the right for person's resurrection to His Son Lord Jesus the Christ. Now we are twice debtors in front of Lord: that we lived the earth life and that we shall be resurrected by Lord Jesus the Christ. Now about the dream that brought me this information. I see a dream. I am in a large dining room where there is no table and chairs and just in the distance I see counters. I am in the open space at the entrance to the left. I stood at the polished table of about a meter and a half long and about eighty centimeters wide. On my side there was a chair and on the other side there were two chairs. I see in the corner from the northern part from the ceiling there come two energetic substances. They touch the floor and materialize, come up to the table, look at me and I look at them. They sit down and I sit down. I saw a relative in front of me, who had died more than twenty years before, and an unknown woman. We were looking at each other in silence for about two or three minutes. Then they stood up and I did, came up to the place where they had materialized, and made dematerialization. They became energetic substances and entered the ceiling in the corner from the northern part. I shall remind the reader that the person in the prophetic dream, visions and clear hearings being in the soul, the person does not belong to himself, he is ruled by the divine forces, and the person does not make up his mind, no thoughts and so on. The dream finished, I awoke and began analysing. When I saw them in two conditions I understood, that the relative let me know, that he had left the purgatory and was clean from the sins completely. And what about that unknown woman? And the answer came, it was the proof that the purgatory they left together, that they are a pair. Now next, they could come to my dream in the usual image, but they came and left through the energetic substances and I understood that this information was the most important. I saw two substances, which materialized and got human appearance, that is the resurrection. They resurrected from the spirit and went in a spirit. This information testifies about the mechanism of the mankind's resurrection. Lord resurrected them for me to understand and tell the mankind about the mechanism of

the resurrection and the resurrection itself. And once more I shall remind you that the mankind's resurrection will take place only through Lord Jesus the Christ. Now think and choose. It is up to your wish!

I offer you to go on the path of the human. I shall digress. I do not know anything about the hell, but I think that different killers, violators, satanists and other scum including all the evil forces clear themselves there.

Now about the purification in the purgatory. In some time, that is years, the darkness weakens and the person can see that he is not alone, that there are different people. And the time to leave the purgatory comes. The person can stay in the purgatory from some years till some tens of years depending on the level of sinfulness of the person. So the purgatory is behind. But what is ahead? Ahead is moving to the skies. To say in details, the moving looks like this. The divine forces take people from the purgatory and follow them to the place where they will live till the second coming of Jesus the Christ. On the heaven within the atmosphere of the Earth there is much flatness, there people live. For you to be clear, why people live on the flatness and what this flatness looks like. The flatness lies horizontally one above the other. How much flatness there is, I do not know. But I know that the lowest flatness, nearer to the earth is occupied by the people who had more sins than those living on the higher flatness and so on. They have cleaned them, but the information about the sins of the person stayed. Now the mankind has to justify himself in front of Lord on the Day of the Judgment. Lord said that the person will justify himself with his words and condemn himself with his words.

Scientists know that the earth has information field, but no one of the scientists know the origin of the earth information field. The earth information field consists of human souls, you need not hesitate. It is really so. The language of communication among them is one, it is telepathy. In the heaven everyone will find his relative soul, and also acquaintances. I kept my promise that I shall tell everything about the soul. But I can add that that soul has three states: the first state when the soul is squeezed and has the least size – the soul is ready to enter the body. In the second state of the soul, I called it transporting, the soul turns strict and reinforced, the intellect is ahead, on the sides there are wings narrowed to the definite form. The soul is ready for the

flight. The third state of the soul is when the soul pulls over, stops flying; the intellect is ahead, on the sides and behind, about a meter on each side in the flatness is the body of the soul, it is its usual state. Once in a dream, I was without the material body, I was in the soul at the time of flying, stopping and the usual state. I remember flying with such a speed that I could not see anything around, and I thought, that I could smash myself, I, that is my soul, stopped sharply and I saw than open place in a forest. I was flying into the house standing in the forest? And I got frightened that I should smash myself on this house and broke and stopped. Here is the conclusion of this dream: the soul knows that it is material and is afraid to smash, the soul does not know, that the physical laws do not share on her, the soul does not know, that it can pass through the material bodies. I know this for sure as I have seen hundreds if times my soul crossing the glass there and back.

I have given you all the information about the soul that I had myself.

I want to address with a call to the whole mankind through my verse.

Our Planet. The Earth.

(the verse interpretation)

In the endless distance behind the sky
Cranes are flying in a cherished key.
Their mournful cry is full of grief
About the tortured by us land.

Their cry, is like the pain of my soul
Not knowing the earth piece.
Oh, the sky, prompt me
How to cure the brain of the “deaf” nation.

Collect yourselves, people of the planet Earth

Reaching the dead line.
We cannot live this way on
Making harm on the earth endlessly.

Our techno genius world,
Creating mortal monsters,
He hurries to the abyss like to the feast,
In his cunning strivings.

I want to ask everyone,
Ruling our world.
How many times can we be killed,
With your stored weapon.

The wounded planet moans
With a hole yawning in the ozone payer.
And the next rocket is flying in the sky
In its flight over the crucified Earth.

God! Save us from ourselves.

If someone did not understand the words:
God! Save us from ourselves. – it means,
That there is no larger enemy for the mankind
Than the mankind itself.

I call the world community to the sound sense – destroy all the weapons of the mass disparagement. Our planet is our common home, and every government of the world community prepared the weapon for destroying the own nation as the war with the usage of the weapons of the mass disparagement is the sentence for he whole mankind and our mother Earth.

I recognize the only kind of weapon – it is laser weapon for protection. Space civilizations have laser weapon, it is ecologically clear, but they will never use it to be the first. I have written and shall remind once more that the space civilizations are very humane; they are very friendly to us. They honour the Universe law: do not make harm to anybody. They are afraid of God and know that every evil is punished and earlier or later there will come retribution to everyone breaking the Universe law. The Universe law by God protects us from any aggression from beyond. There is no larger enemy for the mankind than the mankind itself.

It is the call for all and everybody. It should be shared all over the earth in every place, for the mankind not to forget what evil it carries to itself and to the world around. It is the call to make the whole mankind to think over and realize everything taking place on our earth.

Dear priesthood of all the nations and all the religions, pleasing God. I bow to you and call you to change the world-outlook and realize the Greatness of Father God, the Son and the Holy Spirit, and carry out the will of Father God, the Son and the Holy Spirit in the name of life on the earth for now living and coming generations.

With love and good to all the nations of the planet Earth!!!
